#### HANDWRITING TIPS (1700s)

-----

- Long “s” looks like “f” without the full crossbar.
- “ij” often written like a “y”.
- “t” and “c” can look nearly identical.
- “h” often has a long upward hook.
- “r” may look like a small tick/curve.
- Names may appear with many spellings — this is normal.

If you want a more advanced version later (with handwriting samples), I can make that too.
